

Publication Materials on Renewable Energy Equipment Information and Energy Conservation Measures

TEX E. G. CO., LTD.

【Equipment Overview】

Equipment	Manufacturer	Model	Output	Quantity
Photovoltaic module	XSOL CO., LTD.	XLM120-380L	380W	160 pieces
Power conditioner	Huawei Japan K.K.	SUN2000 - 4.95KTL - NHL2	4.95kW	11 units
Power conditioner	Huawei Japan K.K.	SUN2000 - 4.95KTL -JPL1	4.95kW	1 units
Storage battery	NICHICON CORPORATION	ESS-U4X1	16.6kWh	1 unit

【Implementation Location】

Installed on the roof of TEX E. G. CO., LTD. headquarters
(2-3-28 Oyamagaoka, Machida City, Tokyo)

【Purpose of Implementation】

To protect the environment as part of the company's SDGs (Sustainable Development Goals).
Reduction of electricity usage and CO2 emissions.
As part of BPC, securing power during disasters.

【Information useful for the introduction of renewable energy equipment by other businesses】

Increased awareness of energy saving among all employees.

【Description of energy saving measures】

We use renewable energy by installing a solar power generation system.
Local green space conservation activities.
Actively introducing renewable materials.
